Summer 2018

SAVE THE DATE

19th

International Symposium on
INNER EAR DISORDERS

A week-long forum for presentation and discussion of the most current research on inner ear diagnosis, medicine, and surgery

March 20-28, 2020

Registration will begin on Saturday, March 21st, with final talks given on Friday, March 27th.

Hotel Theresa in Zell im Zillertal, Austria

This week-long continuing medical education program is intended for practicing otolaryngologists, otologists/neurotologists, neurologists/neurosurgeons, neuroradiologists and audiologists. It will provide a comprehensive overview of inner ear diseases/disorders and their treatments. Basic and clinical researchers will present lectures and conduct plenary sessions on clinical ramifications of inner ear pathophysiology, state-of-the-art interventions, inner ear organ culture techniques, hair cell regeneration, inner ear fluid dynamics and their alterations in pathophysiologic disorders, and autoimmune inner ear disease.

LETTER FROM THE DIRECTOR

Dear Colleagues,

Greetings to everyone! I hope all of you are doing well and enjoying your summer. Personally, I am missing the abundant snow we had in Zell at our last symposium as the temperature in Little Rock is now nearing 100° F each day! That said, plans are

already underway for our next meeting, and it is time to nominate our next Gold Medal Award recipient.

In this newsletter you will find a form that can be used to submit your nomination via mail, email, or Fax (or you can forego the form and simply submit your suggestion(s) to me directly by email). The Board of Directors will cast their votes on all the nominations, and the selected individual will be announced in the Spring 2019 newsletter. As indicated by the profile of past Gold Medal Award Winners, we have had an impressive company of honorees. At the **19th International Symposium on Inner Ear Disorders** (to be held at Hotel Theresa in Zell im Zillertal, Austria, March 20-28, 2020), we will continue the tradition of honoring that individual who, in the words of Prosper Meniere, raises questions of interest, stimulates active researches, and provokes oppositions.

Thank you in advance for all your nominations!

A handwritten signature in black ink that reads "John Dornhoffer MD".

John Dornhoffer, MD, FACS
